December 2010

Dear Sensei, Dear Friends,

In 2010, we're celebrating the 20th anniversary of our winter seminar.

Our first thought goes to Nakakura sensei who would have been 100 years on 24th September 2010.

His outstanding personality, his amazing gift and his charisma have marked anyone who encountered him.

Forever he will remain linked with the history and soul of the Winter Seminar. We pay him a respectful and warm tribute.

Secondly, we greatly appreciate once more the energy and the labour of Hirakawa sensei. He has never shrunk back from any sacrifice to develop the passion of the 3 disciplines in Belgium and in Europe since 1980.

Thanks to the action of the International Goodwill Kendo Club, numerous notorious teachers have visited our country and led us on the path. We heartily thank them!

We express our gratitude to the many devoted people who work in the shade to make this seminar a renewed successful event.

Finally, we are grateful to all European teachers and seminar members who, despite plain comfort, have been faithful to our winter event. All of you have contributed to create and carry on a serious, appropriate and affectionate spirit.

Cheers to the 20th edition of the winter seminar in Brussels and hope to see you all next year... That's "Dô" That's life!

Daniel Delepière

Dear Friends,

This is the **20th edition of the Nakakura winter seminar and championship.**

Why do we emphasize that much the anniversaries?
Many can be the reasons.

I want to pick up 3 who sound particular for me.

The 1st one is certainly that **thinks are not easy going by them self.**
Practicing a "Do" is never done without efforts. So when we do that 1, 2,
3...20.times this means that we ware perseverant. We remain true to our quest.
Celebrate this encourage us for the future.

The 2d reason **is to call our memory back to check the way cover** since the
beginning.
It is an other way to help us to do a next step forward.

The 3d reason is that we can **count the seniors and the new comers.** This is
useful because those 2 elements prove for the 1st one, the seniors that we are not
alone on this road and 2d one that we have been able to generate a new
generation.
Filiation is a land mark of a DO. We know or we must know where we are
coming from. But we are responsible to generate a future.
So regarding those 3 reasons I have no doubt that we will share the same
conclusion:

- The way is hard
- We cover a nice distance but we still no where.
- Old and young we have to keep together.

Bravo for all of us to be here, this time again.

Gambate,

Alain Ducarme, Renshi Kendo
